Dear Mr. Calabrese:

The Oregon Department of Environmental Quality (DEQ) has reviewed the March 7, 2006 *Biological Reference Sample Selection, Ecological Risk Assessment Work Plan*, for the Astoria Area-Wide (AAW) Petroleum Site. The reference sediment samples are acceptable provided both REF-YB and REF-EBB are used in the bioassay testing program. Please call me at (503) 229-5213 if you have any questions concerning DEQ's review or other project issues.

Sincerely,

Anna Coates, R.G.
